 - i) the type and size of tower at each location;
 - ii) the type of equipment located or proposed on each tower;
 - iii) the space available on the tower for additional equipment; and
 - iv) a site plan depicting any parcels on which any existing or proposed tower(s), antenna(s) or equipment is currently or is proposed to be located.

Pursuant to ORC 519.211 (C), ORC Sections 519.02 to 519.25 confer power on a Board of Township Trustees to regulate the location, erection, construction, reconstruction, change, alteration maintenance, removal, use or enlargement of any buildings or structures of a public utility engaged in the business of transporting persons or property, or both, or providing or furnishing such transportation service, over any public street, road or highway in the state of Ohio, and with respect to the use of land by any such public utility for the operation of its business to the extent that any exercise of such power is reasonable and not inconsistent with chapters 4901, 4903, 4904, 4921, and 4923 of the Ohio Revised Code. For the purposes of this Resolution, all such uses shall be considered commercial uses and shall be located in commercial or industrial districts if approved by the Board of Township Trustees. The Board of Trustess has no power with respect to a building or structure of, or the use of land by, a person engaged in the transportation of farm supplies to the farm or farm products from farm to market or to food fabricating plants.

Any company engaged in the transport of persons or property that is lawfully established at the time of the adoption of this amendment shall be permitted to continue, but any expansion of such existing use shall conform to the regulations of this resolution.

Section 6.04 - STRUCTURES UNDER CONSTRUCTION AND NEW CONSTRUCTION Nothing contained in this Resolution shall require any change in the plans, construction, size or designated use of a structure upon which construction was begun before the effective date of this Resolution. The Zoning Inspector may require proof in the form of an affidavit or other similar documents that the originally intended use of the structure has not been changed. The foundation shall have been started within six months from the effective date of this Resolution. The ground story framework, including structural parts of the second floor, shall have been completed within one (1) year and the entire structure completed within two (2) years after the effective date of this Resolution.

Section 6.05 - ISSUED ZONING PERMITS: Any new proposed construction for which a zoning permit is issued shall have been started within six (6) months of issuance of said permit, and the ground story framework, including structural parts of a second floor, shall have been completed within one (1) year after the issuance of the zoning permit; provided, however, that any project or structure originally contemplated to be constructed in phases or for a period longer than one (1) year may be completed in phases or during such extended time if in accordance with a timetable placed on file with the Township and with the original request for the permit. In no case shall the timetable for phased construction be more than two years.

In the case of phased construction, if the above schedule is not met, any prior right as a nonconforming use is lost and zoning permits for new construction are void.

Article VII PLANNED RESIDENTIAL CONSERVATION DISTRICT (PRCD)

Section 7.01 PURPOSE

The Planned Residential Conservation District (PRCD) is created pursuant to Section 519.021 (C) of the Ohio Revised Code to promote the general public welfare, encourage the efficient use of land and resources, promote greater efficiency in public utility services, and encourage innovation in the planning and building of all types of development. The PRCD achieves this purpose by allowing the development of conservation subdivisions that:

- a.) permanently preserve and integrate open space within residential developments;
- b.) offer landowners alternatives to standard tract development of their land;
- c.) establish a less sprawling, more efficient use of land, streets and utilities;
- d.) preserve natural topography in wooded areas;
- e.) create usable and accessible open space, recreational areas, and green corridors for wildlife, walking trails and/or bike paths; and
- f.) encourage creativity in design through a controlled process of review and approval of the development plan and related documents.

Section 7.02 OVERLAY AREA

The PRCD is created pursuant to Section 519.021(C) of the Ohio Revised Code and encompasses, includes and overlays all land that is currently zoned Farm Residential (FR-1) on the effective date of this amendment to the Concord Township Zoning Resolution. The effective date of the amendment referenced in this Section is June 27,2005.

Section 7.03 EFFECT OF PRCD OVERLAY DESIGNATION

All land currently zoned Farm Residential (FR-1) is eligible for PRCD overlay zoning as of the effective date of this amendment and as also shown on the Concord Township Zoning District Map dated June 27, 2005, which map is hereby adopted as the official Zoning District Map as part of this amendment.

The Farm Residential Zoning District and the zoning regulations thereunder shall continue to apply to all property within the PRCD unless the Township approves an application of an owner of property within the FR-1 District to subject the owner's property to the provisions of the PRCD.

Such an application shall be made in accordance with the provisions of Article VII of the Concord Township Zoning Resolution and shall include a development plan in compliance with the provisions of said Article.

Upon receiving such an application, the Township shall determine whether the application and development plan comply with the provisions of Article VII. This determination shall not be considered to be an amendment to the Township zoning resolution for purposes of 519.12 of the Ohio Revised Code, but may be appealed pursuant to Chapter 2506 of the Revised Code.

If the Township makes a final determination that the plan included in the application does not comply with the PRCD regulations of Article VII of this Resolution, the Commission shall deny the application. The applicant can file a 2506 appeal pursuant to ORC 519.021 (C).

If the Township determines that the application and development plan comply with the provisions of Article VII, it shall approve the application, and cause the zoning map to be changed so that the Farm Residential District no longer applies to such property, with the property being thenceforth located in

the PRCD and subject to the regulations thereunder. The approval of the application and development plan and the removal of the prior Farm Residential Zoning District from the zoning map is an administrative, ministerial act and shall not be considered to be an amendment to the Concord Township Zoning Resolution.

Section 7.04 PERMITTED USES

1. Single Family detached residential dwelling units.
2. Common wall single family attached dwellings.
3. Two family dwellings.
4. Multi family dwellings, provided they comprise no more than 20% of the total allowable density.
5. Open Space- Upon approval of the final development plan by the Township, the following types of activities are permitted within open space, including but not limited to:
 - a.) Bocce, baseball, basketball, softball, football, volleyball, badminton, golf, soccer, swimming, tennis, ice or roller skating, rollerblading, skateboarding, Frisbee, bird watching, horseshoes, canoeing, rowing, jogging, walking, gardening, and bicycling. If open space is intended to be used as a commercial venture, it shall be so stated in the development plan and approved by the Township. All open space lands shall be permanently owned as provided in Section 7.08.
 - b.) Accessory service buildings and structures incidental and pertinent to permitted uses in paragraph a.) above, where said accessory service buildings and structures are necessary to the pursuit of a permitted recreational use on the premise.
 - c.) Natural (Open Space) Area- restricted to passive uses such as fishing, swimming, hiking, canoeing, and such other recreation that does not alter any of the natural features of the area. Agriculture may be used as natural open space, provided it does not permit hog operations, poultry, fur bearing farms or feed lots.

Section 7.05 DESIGNING A CONSERVATION SUBDIVISION

A conservation subdivision is an open space development designed in accordance with the following suggested process:

- A. Suggested Design Process:**
 1. Delineate primary conservation areas. Preserve as natural open space.
 2. Delineate secondary conservation areas; preserve selected areas as common (improved) or natural open space.
 3. Draw house footprints outside the conservation areas. Draw the number of houses based upon the permitted density calculations, with lot lines.

- B. Suggested Design Guidelines:**

1. In order to reduce visual impact, dwellings should typically be located along the edges rather than in the center of open fields if they will be seen from existing public roads. Avoid new construction on prominent hilltops or ridges.
2. Front dwellings on internal roads, not on external roads.
3. 85% or more of the total number of house lots should have a direct view of common open space.
4. Retain or replant native vegetation adjacent to wetlands and surface waters.
5. Preserve existing hedge and tree lines to the extent practicable.
6. Preserve scenic views and vistas.
7. Protect wildlife habitat areas of species listed as endangered, threatened, or of special concern by the Ohio Department of Natural Resources.
8. Preserve historic or archaeological sites (i.e. earthworks, burial grounds).
9. Landscape or retain vegetation in common areas with native trees and shrubs.
10. Place shade trees along internal roads at fifty-foot intervals on at least one side of the road.
11. Provide active recreational areas in suitable locations.
12. Include a viable pedestrian circulation system, meaning a minimum of a five foot wide asphalt bike and walking path throughout the development.
13. Protect natural drainage swales and creeks. No construction of buildings inside the 100 year floodplain.
14. Provide permanent open space, according Section 7.07 B.

Section 7.06 PROCEDURE TO CREATE A CONSERVATION SUBDIVISION

A. Prepare an Existing Features (Site Analysis) Map.

B. Submit Existing Features (Site Analysis) Map without fee- The applicant shall submit the existing features (site analysis) map for a tract(s) of land to be considered as a conservation subdivision with the Concord Township Zoning Commission, and schedule an agreeable time to jointly visit the site for an on-site walkabout.

C. On-Site Walkabout- The applicant, the Zoning Inspector, one member of the Zoning Commission and one member of the Board of Township Trustees may visit and view the site, at which time the primary and secondary conservation areas shall be identified. Members of the

public in attendance wishing to walk the site shall execute a release of liability in favor of the Township, the applicant, and the property owner.

D. Conceptual Development Plan- At the completion of the on-site walkabout a conceptual development plan should be quickly sketched on the existing features (site analysis) map by the applicant or his consultant for impromptu comments from those in attendance. Based upon such comments, a formal development plan can be prepared for public hearing. No binding decisions or votes are made at the on-site walkabout.

E. Prepare Application and Final Development Plan- Applicant shall prepare and submit a formal application and final development plan, with fifteen (15) copies and fees, to the Concord Township Zoning Commission. The Zoning Commission shall schedule a public hearing. Notice of the hearing shall be given to directly abutting property owners by regular mail. The failure of delivery of such notice shall not invalidate any action taken on the application. The Zoning Commission may request the Delaware County Regional Planning Commission (DCRPC) to comment. The DCRPC's review is administrative. The Zoning Commission's review is also administrative.

The applicant may, if he chooses, submit a preliminary development plan to test the appropriateness of his design and his general attention to the development standards of Section 7.07 prior to submitting a final development plan. Such preliminary development plan may be reviewed by the Zoning Commission and/or the Trustees, who may comment on the record to the applicant. If the Township holds public hearings to review the preliminary development plan they shall comply with Ohio's open meeting law and abutting property owners shall be notified.

The final Development Plan shall be drawn to a scale of at least 1" = 100', and shall include in text and map form the following:

1. A survey plat and legal description signed by a registered Ohio surveyor showing the size and location of the proposed development.
2. A preliminary drainage plan with a letter of feasibility from a licensed professional engineer.
3. An explanation of the method/structure and proposed documentation and instruments to be used in order to perpetually preserve the required open space.
4. The proposed uses of the site, including the limitations or controls to be placed on each.
5. All design guidelines from Section 7.05.
6. Location of buildings and structures.
7. Streets, roadways, pathways, sidewalks and parking areas.
8. Existing utility easements and proposed new easements to the extent known.
9. Proposed lot sizes.

10. Minimum setback and spacing requirements.
11. Recreational facilities.
12. Preserved open space areas and a description of proposed open space improvements.
13. All commonly owned structures.
14. A landscape plan that depicts and identifies all proposed landscaping and entrance features, including those specified herein. The landscape plan shall identify typical elevations and cross sections of landscape features, with the names of plants, shrubs or trees intended to be used.
15. Dwelling unit types, the total number of dwelling units proposed for the site density, and the method and manner used to calculate density.
16. Primary conservation areas as defined in Article IV.
17. Locations of stream channels, watercourses, wooded areas and buffer areas shall be designated. Existing topography and drainage patterns shall also be shown. No structure (other than approved drainage structures as shown on The Development Plan or other approved structures, such as a park shelter house) shall be constructed within the limits of the 100-year floodplain as mapped by FEMA on the Flood Insurance Rate Maps for Delaware County.
18. The extent of environmental conservation by indicating the location of all woodland preservation areas and natural topography preservation areas.
19. Architectural design guidelines including materials, colors and typical renderings for structures and proposed procedures for controlling architectural design elements.
20. Signs, with specific renderings of the elevations.
21. The proposed provisions for water supply, fire hydrants, sewage disposal and surface drainage with engineering feasibility studies or other evidence of reasonableness.
22. A preliminary traffic impact analysis based upon new trip generation.
23. The relationship of the proposed development to existing and probable uses of surrounding areas during the development timetable.
24. Identification and location of all land dedicated to schools, parks and other public facility sites within or adjacent to the site.
25. The proposed time schedule for development of the site including streets, buildings, utilities, and other facilities. If the proposed timetable for development includes developing the land (including open space) in phases, all phases shall be fully described in textual form in a manner calculated to give Township officials definitive guidelines for approval of future phases.

26. The ability of the applicant to carry forth this plan by control of the land and the engineering feasibility of the plan.
27. Unless specifically superceded by the standards contained in Article VII or those standards approved in the Development Plan, the development shall comply with the requirements contained in the General Development Standards contained in Article XXI of this Resolution applicable to all zoning districts of the Concord Township Zoning Resolution. Except for density, and the percentage of required open space, the applicant may request a divergence by the Township from the development standards set forth in Article VII or Article XXI. An applicant making such a request shall specifically and separately list each requested divergence and the justification therefore on the Development Plan submittals, with a request that the proposed divergence be approved "per plan."
28. Deed restrictions, protective covenants, and other legal statements or devices to be used to control the use, development and maintenance of the land, the improvements thereon, including those areas which are to be commonly owned and maintained as well as the open space.
29. The various plans that make up the Development Plan shall bear the seal of a professional engineer, surveyor and an architect or landscape architect, each of whom shall be licensed to practice in the State of Ohio, and shall stamp their individual plans.

F. Public Hearing- The Concord Township Zoning Commission, after giving proper notice, shall hold a public hearing on the request within a reasonable period of time after receipt of the application, final development plan and submission of fees.

G. Action by The Concord Township Zoning Commission- The Concord Township Zoning Commission may approve divergences they find are warranted by the design and amenities incorporated in the development plan. The Zoning Commission shall recommend approval of the application for the PRCD and final development plan provided it determines that the application and plan comply with the standards of Section 7.07 and the process of Article VII. If the Zoning Commission finds that the development plan does not meet the standards of Section 7.07 and the provisions of Article VII, or that divergences requested are not warranted, they shall deny the plan or the divergences. This completes the Zoning Commission's actions, and they shall forward the development plan to the Township Trustees for their review.

H. Action by the Concord Township Trustees- Upon receipt of the development plan and the Zoning Commission's recommendations, the Trustees shall hold a properly advertised public hearing. Notice of the hearing shall be given to directly abutting property owners by regular mail. The Trustees can either uphold, modify, or overturn the recommendation of the Zoning Commission. A simple majority is required by the Trustees to uphold or modify the Zoning Commission's recommendation. A unanimous decision of the Board of Trustees is required to overturn the Zoning Commission's recommendation.

I. Subdivision Plat-No zoning certificate shall be issued for any structure in any portion of a PRCD for which a plat is required by the Delaware County Subdivision Regulations unless and until:

1. The final subdivision plat for that portion has been approved by the Delaware County Regional Planning Commission, the Delaware County Commissioners and then recorded.
2. A full size and an 11"x 17" copy of the recorded plat have been filed with the zoning inspector.

No modification of the provisions of the Final Development Plan, or part thereof, as finally approved shall be made unless the provisions of subsection 7.09 are followed. The applicant shall submit the subdivision plat to the Zoning Inspector for review in order to assure the notes and agreed conditions on the Development Plan are not compromised by final engineering.

J. Zoning Certificate-After the Final Development Plan is approved and any required final Subdivision Plat is recorded, the Zoning Inspector may issue a zoning permit upon payment of the required fees and submission of the detailed landscaping plan for each lot. The zoning permit for a PRCD development shall be for a period not to exceed three (3) years or that period approved in the final development plan. If significant construction, meaning the physical placement of roads or foundations, has not begun within three (3) years after final development plan approval is granted or within the time period approved in the final development plan, then the Final Development Plan approval shall be void. In such case, the PRCD zoning and map amendment remain in place, but a development plan must be resubmitted for approval.

Section 7.07 PRCD DEVELOPMENT PLAN STANDARDS

A. Minimum tract size for a PRCD Subdivision- 10 acres.

B. Open Space- At least fifty percent (50%) of the gross tract acreage shall be designated as permanent open space, not to be further developed, unless an exception as provided in 7.07 (C) (2) and (3) is granted by the Township. Open space locations and uses shall be identified on the development plan and shall be subject to the approval of the Township. Open space shall be owned, administered and maintained as identified on the development plan pursuant to Section 7.08. With prior consent through resolution of the Board of Trustees of Concord Township, land may be transferred to the Township for public purposes if approved as a part of the final development plan. Uses of land transferred to the Township for public purposes must be approved as a part of the final development plan and may include, but are not limited to, trails, active recreation and spray irrigation fields. The decision whether to accept an applicant's offer to dedicate open space for public use shall be at the discretion of the Township Trustees. Land dedicated to public purposes may count toward the open space requirement if approved on the development plan.

1. At least fifteen percent (15%) of the minimum required open space shall be suitable for active recreation purposes in order to preserve a reasonable proportion of natural open space on the site, but no more than fifty percent (50%) shall be utilized for that purpose. The development plan shall specify the purposes for which open space areas are proposed. Any recreational facilities proposed to be constructed within open space areas shall be clearly shown on the development plan.
2. In calculating open space, the areas of fee simple lots conveyed to homeowners shall not be included.
3. The required open space may be used for underground drainage fields for

individual or community septic systems, and for "spray fields" for spray irrigation purposes in a "land application" sewage disposal system as approved per the development plan.

4. Primary conservation areas, plus storm water management detention/retention ponds, plus constructed wetlands acting as detention basins, plus sewage treatment areas may count in their combined aggregate for up to 50% of the required open space.
5. Any area of natural open space that is proposed to be disturbed during construction or otherwise not preserved in its natural state shall be shown on the development plan and, if required, shall be restored with vegetation that is compatible with the natural characteristics of the site. The method and timing of any restoration shall be set forth in the development plan.

C. Determining The Number of Dwelling Units Permitted, and the Percent of Open Space

The number of dwelling units is dependent on the provision of centralized sanitary sewer as defined in Article IV as follows:

1. For land not serviced by centralized sewer, multiply the number of gross acres times sixty-six hundredths (0.66) dwelling unit per gross acre to obtain the maximum number of permitted dwelling units. Provide 50% of the gross acreage in permanent open space.
2. For land served by centralized sanitary sewer, multiply the gross acreage to be developed by seventy-five hundredths (0.75) dwelling unit per gross acre to obtain the maximum number of dwelling units permitted. Provide 50% of the gross acreage in open space.
3. Density Exception: For land served by centralized sanitary sewer and where the existing features (site analysis) map shows that the sum of all steep slopes, floodplains, wetlands, and/or overhead electric transmission line easements comprises less than 10% of the gross land acreage, the Township shall allow a density exception to a maximum of (0.85) dwelling units per gross acre with 40% of the gross acreage in open space, in return for which the applicant shall commit to the reforestation, seeding of native plants and creation of ponds in these open spaces. This additional density is granted in order to offset the costs of reforestation, plantings, water features, regrading and exceptional horticultural techniques needed to recreate adequate natural landscape buffers, and secondary conservation areas that do not exist naturally in order to meet the intent of a conservation subdivision under Article VII.

D. Sewage Disposal- For centralized sanitary sewer usage, a feasibility letter shall be provided by the Delaware County Sanitary Engineer indicating that sewer service is available with the capacity needed. For sites not served by public centralized sewer, sewage disposal feasibility shall be demonstrated by letter from either the Delaware General Health District or the Ohio EPA.

E. Perimeter Setback- No building shall be constructed within 50 feet of the external boundary of the conservation subdivision.

- F. Storm Water**- No features shall be designed which are likely to cause erosion or flooding.
- G. Subdivision standards**- Public streets and all drainage improvements shall conform to the subdivision standards for Delaware County Ohio or as otherwise approved per the final development plan.
- H. Pavement standards for condominium drives**-All condominium drives that are not dedicated for public maintenance shall be constructed to a pavement width and cross section that meets the average daily traffic and weights anticipated in the Delaware County Engineer's Location and Design Manual, or shall have a design life of 20 years.
- I. Pavement standards for parking lots**- Parking lots and private driveways do not have to meet street cross sectional standards, but parking lot drive aisles that connect to the public streets shall be constructed to public street cross sectional and design life standards within 50 feet of the edge of the public paved road.
- J. Paths**- A five foot wide asphalt walking or bike path is required for conservation subdivisions of more than 15 lots. Paths shall be separated from the paved street surface by at least five feet (5') of landscaped or grassed strip. The Township may require paved or unpaved walkways to connect residential areas and open spaces.
- K. Street Trees**- Deciduous, broad leaf street trees with a minimum caliper of three inches (3") at planting shall be planted (or retained) at least every fifty (50) lineal feet along at least one side of the street(s).
- L. Minimum Front Setbacks**- Dwelling Units and garages shall be set back a minimum of forty (40) feet from the street right-of-way.
- M. Minimum lot size**- Twelve thousand (12,000) square feet for single family detached dwellings on fee simple ownership lots, or as otherwise approved on the final development plan. Attached dwelling units or detached condominiums as approved per the final development plan.
- N. Minimum Lot Width** at the building line-
- 1.) 80' lot widths may be used for a maximum of 30% of the total single family lots.
 - 2.) 90' lot widths may be used for a maximum of 30% of the total single family lots.
 - 3.) 100' or wider lots shall be used for at least 40% of the total single family lots. or as otherwise approved per final development plan.
- O. Minimum Side yards**- Twelve and one-half (12 ½) feet each side for single family and common wall single family units and their garages, with no encroachments. For multi family or non residential structures the minimum separation between buildings units shall be thirty (30) feet.
- P. Driveway Setbacks**- Two feet from side lot line. Side-load garages shall provide at least 24 feet of paved apron, exclusive of the 2 foot side lot line for single family detached dwellings on fee simple ownership lots. Attached units or detached condominiums as approved per the final development plan.

- Q. Minimum Rear yard-** 30 feet for single family detached dwellings on fee simple ownership lots and attached garages. Fifteen (15) feet for accessory buildings. Attached units or detached condominiums as approved per the final development plan.
- R. Building Height Requirement-** No principal building in this district shall exceed forty-five (45) feet in height, as defined under “building, height” in Article IV of the Concord Township Zoning Resolution.
- S. Minimum Dwelling Unit Floor Area-** Eleven hundred (1100) square feet per dwelling unit.
- T. Street lighting-** if provided must be of white light, maximum height 16 feet, with a cutoff downward cast fixture.
- U. Landscaping** - All yards, front, side and rear, shall be landscaped. All improved common open space shall be landscaped per the approved development plan. A landscape plan for the common open space and streetscape within road right-of-way shall be prepared by a licensed landscape architect showing the caliper, height, numbers, name and placement of all material, and shall be submitted with and approved as a part of the final development plan.
- V. Parking** – Off-street parking shall be provided. Construction traffic may park in the street, but only on one side so as to allow for safe access by emergency equipment. Off-street parking shall comply with the provisions of Article XXI of the Concord Township Zoning Resolution, or as approved per the development plan.
- W. Signs-**All signs shall be in accordance with Article XXII of the Concord Township Zoning Resolution, or as approved per plan.
- X. Other Requirements-** Unless specifically supplemented by the standards contained in Article VII, or those standards approved by divergence in the development plan, the development shall comply with all the General Development Standards applicable to all zoning districts as set forth in Articles XXI, XXII and XXIII of the Concord Township Zoning Resolution.
- Y. Supplemental Conditions and Safeguards-** If the Township determines that additional landscaping is needed to buffer existing land uses they may require such as part of the development plan approval.
- Z. Divergences-** The Township, as a part of development plan approval, may grant divergences from any standard or requirement in this Section with the exception of density, and the percentage of required open space. An applicant requesting a divergence shall specifically and separately list each requested divergence and the justification therefore on the development plan submittals with a request that the proposed divergence be approved “per plan”.

Section 7.08 OWNERSHIP AND MAINTENANCE OF OPEN SPACE

- A. **Ownership of Open Space**
Different ownership and management options apply to the permanently

protected common open space created through the development process. The common open space shall remain in perpetuity and may be owned as identified in Section 7.08. A public land dedication, not exceeding ten percent (10%) of the total parcel size, may be required by the Township to facilitate trail or pathway connections. A narrative describing ownership, use and maintenance responsibilities shall be submitted for all common and public improvements, utilities, and open spaces.

Ownership Standards. Common open space within the development shall be owned, administered, and maintained by any of the following methods, either individually or in combination, and subject to approval by the Township.

1. Offer of Dedication. The Township shall have the first offer of undivided common open space in the event said land is to be conveyed to a public agency. Dedication shall take the form of a fee simple ownership. The Township may, but is not required to accept undivided common open space provided: 1) such land is accessible to all the residents of the Township; 2) there is no cost of acquisition other than incidental costs related to the transfer of ownership; 3) the Township agrees to maintain such lands. Where the Township accepts dedication of common open space that contains improvements, the Township may require the posting of financial security to ensure structural integrity of improvements for a term not to exceed eighteen (18) months.
2. Homeowners Association. The undivided common open space and associated facilities may be held in common ownership by a homeowners association. The association shall be formed and operated under the following provisions:
 - a) The developer shall provide a description of the association, including its bylaws and methods for maintaining the common open space.
 - b) The association shall be organized by the developer and shall be operated by the developer, before the sale of any lots within the development.
 - c) Membership in the association is mandatory for all purchasers of homes therein and their successors. The conditions and timing of transferring control of the association from developer to homeowners shall be identified.
 - d) The association shall be responsible for maintenance of insurance and taxes on the undivided common open space. The association may establish rules to ensure proper maintenance of property, including monetary liens on the homes and home sites of its members who fail to pay their association dues in a timely manner. Such liens may impose a penalty of interest charges.

- e) The members of the association shall share equitably the costs of maintaining and developing, where appropriate, such undivided common open space. Shares shall be defined within the association bylaws.
- f) In the event of transfer, within the methods herein permitted, of undivided common open space land by the homeowners association, or the assumption of maintenance of undivided common open space land by the Township, notice of such pending action shall be given to all property owners within the development.
- g) The association shall provide for adequate staff to administer common facilities and property and continually maintain the undivided common open space.
- h) The homeowners association may lease common open lands to any other qualified person, or corporation, for operation and maintenance of common open space lands, but such lease agreement shall provide:
 - 1) That the residents of the development shall at all times have access to the common open space lands contained therein (except croplands during the growing season).
 - 2) That the undivided common open space shall be maintained for purposes set forth in the approved final development plan.
 - 3) That the operation of common open space may be for the benefit of the residents only, or may be open to all residents of the Township, at the election of the developer and/or homeowners association. In cases where public trails or paths are provided as linkage between developments or as a continuous link of common open space within the Township, all residents of the Township shall have access to such identified paths/walkways.
- i) The lease shall be subject to the approval of the homeowner's association board and any transfer or assignment of the lease shall be further subject to the approval of the board. Lease agreements shall be recorded with the Delaware County Recorders office and notification shall be provided to the Township Trustees within 30 days of action by the Board.

3. Condominiums. The undivided common open space and associated facilities may be controlled through the use of condominium agreements, approved by the Township. Such agreements shall be in conformance with all applicable laws and regulations. All undivided common open space land shall be held as a common element.

4. Dedication of Easements. The Township may, but shall not be required to accept easements for public use of any portion or portions of undivided common open space land, title of which is to remain in ownership by condominium or homeowners associations, provided:

- a) Such land is accessible to Township residents;
- b) There is no cost of acquisition other than incidental transfer of ownership costs;
- c) A satisfactory maintenance agreement is reached between the developer, association and the Township.

5. Transfer of Easements to a Private Conservation Organization. With the permission of the Township, an owner may transfer easements to a private, nonprofit organization, among whose purposes it is to conserve open space and/or natural resources; provided that:

- a) The organization is acceptable to the Township, and is a bona fide conservation organization with perpetual existence;
- b) The conveyance contains whatever provisions are agreed to between the Township Trustees, the owner and the organization.

6. Third Party Ownership. With the approval of the Township, open space may be owned by a third party if protected by either: (i) an open space easement which permanently and irrevocably transfers the development rights from the open space land to a homeowners or condominium association, the Township or a conservation organization; or (ii) unmodifiable deed restrictions that permanently restrict the use of the open space to those uses identified in the approved development plan. Open space land to be transferred to a third party other than a Homeowners Association, condominium association or the Township shall also be located in a reserve with an open space notation on a recorded final plat.

B. Maintenance of Open Space

- 1. The ultimate owner of the open space shall be responsible for raising all monies required for operations, maintenance, or physical improvements to the open space through annual dues, special assessments, etc. The owner shall be authorized under the homeowner association bylaws to place liens on the property of residents who fall delinquent in payment of dues or assessments.
- 2. In the event that the organization established to own and maintain common open space shall at any time after establishment of the planned development fail to maintain the common open space in reasonable order and condition in accordance with the Final Development Plan, the Township Trustees may serve written notice upon such organization or upon the residents of the planned development setting forth the manner in which the organization has failed to maintain the common open space in reasonable condition. The notice shall include a demand that such deficiencies

of maintenance be cured within thirty (30) days thereof, and shall state the date and place of a hearing thereon which shall be held within fourteen (14) days of the notice. At such hearing the Township Trustees may modify the terms of the original notice, add to the deficiencies and may give an extension of time within which they shall be cured.

If the deficiencies set forth in the original notice or in the modifications thereof shall not be cured within said (30) days or any extension thereof, the Township Trustees may pursue the enforcement as a zoning violation.

Section 7.09 Extension or Modification of Final Development Plan

- A. An extension of the time limit for the approved Final Development Plan may be granted by the Concord Township Zoning Commission without public hearing provided they find that such extension is not in conflict with the public interest.
- B. A request for minor changes to the Final Development Plan may be approved by the Township. Requests for minor changes shall initially be made to the Township Zoning Commission, who shall make a recommendation and pass it on to the Trustees. In approving such requests, the Township may impose such conditions, safeguards and restrictions in order to carry out the purpose and intent of this district.
- C. In the case of a request for a modification or amendment to the Final Development Plan that represents a substantial departure from the intent of the original proposal, said modification or amendment shall be subject to the same procedure and conditions of approval as the original application. The following shall be considered substantial departures from the original application:
 - 1. A change in the use or character of the development;
 - 2. An increase in overall coverage of structures;
 - 3. An increase in the density or overall number of dwelling units;
 - 4. An increase in the problems of traffic circulation or public utilities;
 - 5. A reduction in approved open space;
 - 6. A reduction of off-street parking and loading space;
 - 7. A reduction in required pavement widths;
 - 8. A reduction of the acreage in the PRCD.

In approving such requests, the Township may impose such conditions, safeguards and restrictions in order to carry out the purpose and intent of this district.

ARTICLE VIII FARM RESIDENTIAL DISTRICT (FR -1)

Section 8.01 - PURPOSE: There is hereby created within Concord Township a Farm Residential District to permit construction of low density single family residences and permit other non-urban types of residential and agricultural activities so that the basically rural character of these areas may be preserved and maintained. In addition, the development of these lands shall be in accordance with the ability of the land to support development without central sewerage disposal and / or central water facilities, to prevent pollution of such lands and aquifers by excessive development, and to protect the aquifer recharge areas.

Section 8.02 - APPLICATION: All lands in Concord Township not otherwise zoned shall be controlled by the provisions of this Article.

All lots in subdivisions which are located within the limits of Concord Township and which were duly recorded upon the plat thereof in the Plat Records of the Recorder's Office, Delaware County, Ohio, on the effective date of this Zoning Resolution shall be considered legal residential lots, and nothing in this Resolution shall be construed to prohibit the use thereof

Section 8.03 - PERMITTED USES: Within the Farm Residential District, the following uses, developed in accordance with all other provisions of this Resolution, shall be permitted:

- a) Single-family dwellings as defined in Article IV of this Resolution (Limited to one single-family dwelling unit per lot of record).
- b) Accessory buildings and accessory uses including swimming pools and private garages.
- c) Projects specifically designed for watershed protection, conservation of soil or water or for flood control.
- d) Agricultural, subject to the following restrictions:
 - 1) Farm markets shall be permitted in this district provided that at least fifty (50%) percent of the gross income from the market is derived from sale of produce raised on farms owned and operated by the market operator in a normal crop year, and adequate area exists adjacent thereto for parking so as not to interfere with traffic on adjacent thoroughfares. All farm market structures must conform to the standards set forth in Section 8.06 (m) of this Resolution.
 - 2) Facilities for the storage, sorting, preliminary processing or sale of agricultural products shall be permitted if such products are used in the production of other farm products, and if said storage, processing, sorting or sales is carried on incident to other farming operations by the owner/proprietor.

- e) Manufactured/Mobile homes for temporary residential use and temporary structures of a nonresidential character may be used incident to construction work on the premises, or on adjacent public projects, or during a period while the permanent dwelling is being constructed. The user of said structure shall obtain a permit for such temporary use, which permit shall be valid for six (6) months and may be renewed not more than twice. Renewal of the permit shall be at the discretion of the Zoning Inspector on finding of reasonable progress toward completion of the permanent structure or project. The Zoning Inspector may require provisions

- 4) If any driveway crosses a drainage swale, stream or ditch, the same should be bridged by pipe or such structure as required to permit the unobstructed passage of all surface water generated by a five-year storm. Any pipe should be sufficient length to extend not less than three (3) feet beyond the toe of the slope of the fill over said pipe unless a properly designed headwall is installed to protect the end of such a pipe. Any bridge or structure

spanning a stream or ditch shall be designed by a Professional Engineer. No bridge should be less than twelve (12) feet in width.

Such fill shall be free of all humus and organic material and should be compacted to a density of ninety-five (95) percent proctor. The fill shall be of sufficient width to include a compacted berm beside the graveled or paved area of reasonable width to facilitate safe passage of vehicles. Guardrails or barriers shall be installed when necessary to create safe conditions.
 - 6) Drainage ditches shall be constructed as necessary parallel to said driveway; such ditches should be graded to a good and sufficient outlet. Siltation control should be placed in any ditch, and such siltation should not flow to roadside ditches along public roads.
 - 7) All curves in the driveway shall have a minimum radius of fifty (50) feet to permit unhindered passage of public safety vehicles including fire vehicles and all other vehicles reasonably expected to utilize the same.
 - 8) All trees, overhanging branches or other obstructions to the free passage of public safety vehicles shall be removed. A twelve (12) feet overhead clearance and a two (2) feet clearance on each side of the driveway shall be maintained.
 - 9) A sixteen (16) feet wide open area shall be maintained at the road end of the driveway to allow emergency and fire vehicles to turn in and out.
 - 10) Driveway maximum grade, up or down, beginning at the public roadway shall not exceed eight (8) percent for the first twenty-five (25) feet.

- 1) Driveways serving individual residential structures shall not be less than ten (10) feet in width and shall be constructed over an aggregate base and load-bearing subsoil. The depth and aggregate size of the base shall be determined by a professional engineer.
 - 2) If a residential driveway serving two (2) or more residences is over five hundred (500) feet in length, widened paved passing areas at least fifteen (15) feet in width shall be provided at reasonable intervals, not more than three hundred (300) feet distance from each other, to permit the free passage to traffic over said drive.
 - 3) Dust control shall be provided on an "as needed" basis.

- c) Commercial, Industrial, Public Facility and Apartment Complex Driveways: In addition to the conditions imposed by Section 21.09(a) previously set forth, the following standards are required for driveways serving all commercial and industrial uses and apartment complexes containing ten (10) or more units and served by a common parking area:
- 1) Driveways shall be not less than twenty (20) feet in width.
 - 2) Driveway base and surface shall be designed by a professional engineer to sufficient depth for anticipated use and access by public safety vehicles.
 - 3) The finished surface of the driveway shall be hard-surfaced and may be of any Ohio Department of Transportation approved materials.

Section 21.10 - Industrialized or Manufactured Structures (modulars, trailers or mobile homes or offices): For the purpose of this Resolution, a modular home, modular office or modular industrial unit shall be defined as an industrialized unit which is made or assembled in manufacturing facilities on or off the building site for installation or assembly, and said unit shall have been inspected and certified to be in compliance with the Ohio Building Code. All such units shall be approved for their appropriate zoning district, the same as a site built structure. All local, state, and federal requirements and permits shall be required. Driveways are considered to be vehicular use areas whenever they are adjacent to a public street or road or other vehicular use elements described previously in this paragraph, and where intervening curbs, sidewalks, landscape strips, etc. do not eliminate adjacency.

(2) Grass or ground cover shall be planted on all portions of easements not occupied by other landscape material.

(3) "OFT" means "or fraction thereof".

- 3) Landscape buffer zone: The landscape buffer zone and material required adjacent to any street under this Article shall be provided by the property owner adjoining street unless the authority building the street has fully met all requirements on the street right-of-way. When adjacent to other common boundaries, the landscape buffer zone and materials:
 - a) May be placed on either adjoining lot, or astride the boundary, if both owned and being processed by the same owner; or
 - b) Shall generally be placed on the activity listed under Property Perimeter Requirement Chart, Column B and Vehicular Use Area Perimeter Chart, Column B when adjoining lots have different owners; or
 - c) May be placed astride the boundary of adjoining lots having different owners if a written agreement, signed by both owners, is filed with the Township Zoning office as a public record; or
 - d) Shall be placed on the activity or lot being processed when adjoining property is already developed with the exception of Property Perimeter Requirement Chart, lines 5 and 6 ; or

 - f) Requirements conflicts: Whenever a lot or activity falls under two or more of the categories listed in the tables, the most stringent requirements shall be enforced.
- 4) Landscape and buffer conflict: The required landscape buffer zone may be combined with a utility or other easement as long as all of the landscape requirements can be provided in addition to, and separate from, any other easement. Cars or other objects shall not overhang or otherwise intrude upon the required landscape buffer zone more than two and one-half feet, and wheel stops or curbs shall be required.
- 5) Existing landscape material: Existing landscape material shall be shown on the required plan, and any material in satisfactory condition may be used to satisfy these requirements in whole or in part when, in the opinion of the public approval authority, such material meets the requirements and achieves the objectives of this Article.
- 6) Landscape at driveway and street intersections: To insure that landscape materials do not constitute a driving hazard, a sight triangle shall be observed at all street intersections or intersections of driveways with streets. Within this sight triangle, no landscape material, except for required grass or ground cover, no fence or wall, no parked vehicles shall be permitted. Within this sight triangle, trees shall be permitted as long as, except during the early growth stages, only the tree trunk is visible between the ground and eight feet above the ground, or otherwise does not present a traffic hazard. The sight triangle is defined in the following sections:
 - a) Driveway intersection triangle - At the intersection of driveways with streets, the sight triangle shall be established by locating the intersection of the street curb or edge with the driveway edge and by measuring from this point a distance of ten feet along the driveway to a point and a distance of twenty feet along the street curb to a point and connecting these points.
 - b) Street intersection sight triangle: At the street intersections, the sight triangle shall be formed by measuring at least thirty-five feet along curb lines or edge of pavement and connecting these points.

- B) Interior landscape for Vehicular Use Areas: Any open vehicular use area excluding loading and unloading and storage areas in an industrial zone or business zone and containing more than 6,000 square feet of area or twenty or more vehicular parking spaces shall provide interior landscape in addition to the previously required perimeter landscape. Interior landscape may be peninsular or island types.
- 1) Landscape Area: For each 100 square feet or fraction thereof of vehicular use area, a minimum total of five square feet of landscaped area shall be provided.
 - a) Minimum Area: The minimum landscape area permitted shall be 64 square feet with a four foot minimum dimension to all trees from the edge of pavement where vehicles overhang.
 - b) Maximum contiguous area: in order to encourage the required landscaped areas to be properly dispersed, no individual areas shall be larger than 350 square feet in size, and no individual area shall be larger than 1500 square feet in vehicular use areas over 30,000 square feet. In both cases, the least dimension of any required area shall be four feet minimum dimension to all trees from the edge of pavement where vehicles overhang. Individual landscape areas larger than above are permitted as long as the additional area is in excess of the required minimum total.
 - 2) Minimum Trees: The following minimums are required based upon total ground coverage of structures and vehicular use areas:
 - a) Up to 20,000 square feet: A minimum of one tree per 5000 square feet of ground coverage and a total tree planting equal to one inch in tree trunk size for every 2000 square feet of ground coverage.
 - b) Between 20,000 and 50 7 000 square feet: A minimum of one tree for every 5,000 square feet of ground coverage and a total tree planting equal to ten inches plus one half inch in tree trunk size for every 2000 square foot over 20,000 square feet in ground coverage.

 - 3) Vehicular Overhang: Parked vehicles may hang over the interior landscape area no more than two and one-half feet, as long as concrete or other wheel stops are provided to insure no greater overhang of the landscape area.
- C) Landscape for Services Structures - Any service structure, accessory use, shall be screened whenever located in any residential zone, commercial zone, or when located on property abutting any residential zone, freeway or arterial street prohibiting driveway access. Structures may be grouped together; however, screening height requirements shall be based upon the tallest of the structures.

- 1) Location of screening: A continuous (having one hundred percent (100%) opacity) planting hedge fence, wall of earth, which would enclose any service structure on all but one side is required. The average height of the screening material shall be one foot more than the height of the enclosed structure but shall not be required to exceed ten feet in height. Whenever a service structure is located next to a building wall, perimeter landscape material or vehicular use area landscape material, such walls or screening material may fulfill the screening requirements for that side of the service structure if that wall or screening material is of an average height sufficient to meet the height requirement set out in this section. Whenever service structures are screened by plant material, such material may count towards the fulfillment of required interior or perimeter landscape. No interior landscape shall be required within an area screened for service structures.
 - 2) Curbs to protect screening material: Whenever screening material is placed around any trash unit or waste collection unit which is emptied or removed mechanically on a regularly occurring basis, a curb to contain the placement of the container shall be provided within the screening material on those sides where there is such material. The curbing shall be at least one foot from the material and shall be designed to prevent possible damage to the screening when the container is moved.
- D) Interior Landscape for All New Developments: All new developments regardless of type and all alterations or expansions to existing developments shall provide interior landscape in addition to the previously required perimeter landscape. Interior landscape shall consist primarily of new tree planting or the preservation of existing trees or hedges within the development site.
- 1 Preservation of existing landscape materials: All trees having trunk diameter of six inches or greater as measured twenty-four inches from ground level shall be preserved unless such trees are exempted as follows:

It is encouraged that exempted trees subject to destruction be preserved by recycling and replanting of such trees.

Preservation of wooded areas: It is encouraged that efforts be made to preserve natural vegetation areas. Consideration shall be given to laying out streets, lots, structures and parking areas to avoid unnecessary destruction of heavily wooded areas or outstanding tree specimens. It is further encouraged that, whenever possible, heavily wooded areas be designated as park reserves.

- 2) Planned/Residential Uses

- a) For all new development, the following landscape requirements shall apply:

The minimum tree size for such tree plantings shall be no less than one and one-half inch in trunk diameter.
- d) For new development or construction, if new tree plantings are required for conformance to the landscape requirements of this Article, the applicant or owner shall indicate on the landscape plan the location and size of such tree plantings. If such trees landscape plan is approved, the applicant or owner shall plant such trees as may be required within one year or the next planting season after issuance of a zoning permit.

ARTICLE XXIX - NONCONFORMING USES

Section 24.01 - CONTINUANCE - Intent: Within the districts established by this Resolution or amendments that may later be adopted there exist lots, uses of land, structures, uses of structures and uses of structures and land in combination which were lawful before this Resolution was passed or amended, but which would be prohibited, regulated, or restricted under the terms of this Resolution or future amendments. It is the intent of this Resolution to permit these non-conformities to continue until they are removed, but not to encourage their survival. Non-conformities are declared by this Resolution to be incompatible with permitted uses in the districts in which such use is located. The lawful use of any dwelling, building or structure and of any land or premises, as existing and lawful at the time of the enactment of this Resolution or subsequent amendment thereof may be continued although such use does not conform with this Resolution, but if any such nonconforming use is voluntarily discontinued for two years or more, any future use shall be in conformity with this Zoning Resolution.

Section 24.02 - RESTORATION: When a structure, the use of which does not conform to the provisions of this Zoning Resolution, is damaged by fire, explosion, flood, wind, earthquake or other calamity outside the control of the owner or occupant to the extent that the cost of restoration is more than sixty (60%) percent of its value, it shall not be restored unless in conformity with the provisions set forth in this Zoning Resolution for the district in which it is located or unless a variance is issued by the Board of Zoning Appeals pursuant to Article XXVIII; provided, however, such restoration shall be commenced within ninety (90) days of such calamity and diligently continued until completed. For the purposes of this section "value" shall be defined as the replacement cost of the structure prior to the calamity depreciated in accordance with applicable Internal Revenue Service guidelines for the structure.

Section 24.03 - ENLARGEMENT: No non-conforming building, structure or use may be completed, restored, reconstructed, extended or substituted except as stated in Article VI, Section 6.01 or Article XXIV, Section 24.02 or upon the granting of a variance issued by the Board of Zoning Appeals pursuant to Article XXVIII and this section.

The Board of Zoning Appeals shall have the power to permit changes and extensions of a nonconforming use as follows:

- a) A nonconforming use of less objectionable nature may be substituted for an existing nonconforming use.
- b) Any existing, legal nonconforming use which occupies only a portion of an existing structure or premises may be extended to additional portions of such structure or premises.
- c) The alteration or reconstruction of a nonconforming structure, sign or building provided that such will make the nonconforming use substantially more in character with its surroundings.
- d) The extension of a nonconforming use when such extension will substantially make the nonconforming use more in character with its surroundings.
- e) Any extension shall not be more than fifty (50%) percent greater in size than the nonconforming use that existed at the time of passage of this Zoning Resolution.

The Board of Zoning Appeals may impose such requirements and conditions as it may deem necessary for the protection of adjacent properties and the public interest.

Section 24.04 - NONCONFORMING LOTS: The construction of a conforming structure and/or the conduct of a permitted use shall be allowed on any lot of record existing on the effective date of this Zoning Resolution which has an area and/or lot width less than that required for such structure or

permitted use in the Zoning District in which the lot is located. Variance of any development standard other than minimum lot area and/or minimum lot width shall be obtained only through action of the Board of Zoning Appeals in accordance with the provisions of Article XXVIII. Such nonconforming lots must be in separate ownership and not have continuous frontage with other land in the same ownership on the effective date of this Zoning Resolution. Otherwise, development shall be permitted only in accordance with the development standards of the Zoning District in which such ownership is located. Notwithstanding the foregoing, any arrangement of land for the development and use of land and buildings previously approved by the Board of Zoning Appeals for and as a Community Development project shall be deemed to be and is hereby classified as a permitted use in the zoning district in which such land and buildings are located, provided that such land and buildings are arranged, developed and used strictly in accordance with the approved Development Plan and subject to such terms, conditions and modifications as may have been imposed by the Board of Zoning Appeals; and further subject to all other provisions of this Zoning Resolution not otherwise in conflict with such approved Development Plan or the Board's approval thereof.

The terms of all members shall be five (5) years and so arranged that the term of one member will expire each year. Each member of the Board of Zoning Appeals shall serve until his/her successor is appointed and qualified. Members of the Board of Zoning Appeals shall be removable for the reasons specified and in compliance with the procedure established in Chapter 519 of the Ohio Revised Code. Section 28.04 - POWERS OF THE BOARD: The Township Board of Zoning Appeals may:

- b) Authorize, upon appeal, in specific cases, such variance from the terms of the Zoning Resolution as will not be contrary to the public interest, where, owing to special conditions, a literal enforcement of the Resolution will result in unnecessary hardship, and so that the spirit of the Resolution shall be observed and substantial justice done.
- c) Grant conditional zoning certificates for the use of land, buildings, or other structures if such certificates are provided for in the Zoning Resolution.
- d) Revoke an authorized conditional use permit for the extraction of minerals if any condition of the certificate is violated.

The Board of Zoning Appeals shall notify the holder of the permit by certified mail of its intent to revoke the permit under division (d) of this section and of his/her right to a hearing before the Board within thirty (30) days of the mailing of the notice, if he/she so requests. If the holder requests a hearing, the Board shall set a time, date and place for the hearing and notify the holder. At the hearing, the holder may appear in person and/or be represented by his/her attorney or other representative, or he/she may present his position in writing. He/she may

present evidence and examine witnesses appearing for or against him/her. If no hearing is requested, the Board may revoke the permit without a hearing. The authority to revoke a permit is in addition to any other means of zoning enforcement provided by law.

In exercising the above mentioned powers, such Board may, in conformity with such sections, reverse or affirm, wholly or partly, or may modify the order, requirement, decision, or determination appealed from, and may make such order, requirement, decision, or determination as ought to be made, and to that end has all powers of the officer from whom the appeal is taken.

Section 28.05 - PROCEDURE ON HEARING APPEALS : Appeals to the Board of Zoning Appeals may be taken by any person aggrieved or by any officer of the township affected by any decision of the Zoning Inspector. Such appeal shall be taken within twenty (20) days after the decision by filing with the Zoning Inspector from whom the appeal is taken and with the Board of Zoning Appeals a notice of appeal specifying the grounds thereof. The Zoning Inspector from whom the appeal is taken shall forthwith transmit to the Board of Zoning Appeals all the papers constituting the record upon which the action appealed from was taken. The Board of Zoning Appeals shall fix a reasonable time for the hearing of the appeal, give ten (10) days written notice by first class mail to the parties in interest, give notice of such public hearing by one publication in a newspaper of general circulation within the township at least ten (10) days prior to the date of such hearing, and decide the same within a reasonable time after it is submitted. At the hearing, any party may appear in person or by attorney.

Section 28.06 - PROCEDURE ON APPLICATION FOR VARIANCE: The Township Board of Zoning Appeals, appointed by the Township Board of Trustees, may, upon application, grant such variances from the provisions or requirements of this Resolution as will not be contrary to the public interest.

Where, by reason of the exceptional narrowness, shallowness or unusual shape of a specific lot, or by reason of exceptional topographic conditions or other extraordinary situations or conditions of such lot, or other good cause shown, and not as a result of the actions of the applicant or of the use or development of a lot immediately adjoining the lot in question, the literal enforcement of the requirements of this Resolution would cause unnecessary hardship, the Board shall have power to authorize a variance from the terms of this Resolution.

- a) **Public Notice** - Written application for a variance shall be made to the Township Zoning Inspector who shall transmit said application to the Board of Zoning Appeals. The Board of Zoning Appeals shall give written notice by first class mail to all owners of land within two hundred (200) feet of the exterior boundaries of the land for which a variance is requested. - b) **Hearing & Decision** - A variance from the terms of this Resolution shall not be granted by the Board of Zoning Appeals unless the applicant has provided sufficient evidence to warrant the granting of a variance. The burden of proof for granting a variance shall rest with the applicant. In granting any variance, the Board of Zoning Appeals may impose such conditions, safeguards and restrictions as may be necessary in order to reduce or minimize potentially injurious effects of such variance upon other property in the neighborhood and to carry out the general purpose and intent of this Resolution. Violation of such conditions, safeguards and restrictions, when made part of the terms under which the variance is granted, shall be deemed a violation of this Resolution and may be pursued as such. The Board of Zoning appeals shall not grant a variance unless it shall, in each specific case, determine that the variance will not be contrary to the public interest and is justified due to special conditions, that the literal enforcement of this Resolution will result in unnecessary hardship and that the spirit of this Resolution will be observed and substantial justice done.

- c) Form of Application - All applications for variances under this section shall be submitted on such forms as designated and approved by the Township Trustees. No application will be considered unless the same is fully completed and accompanied by all required information listed on said application.

Section 28.07 - PROCEDURE ON APPLICATION FOR CONDITIONAL USE PERMIT: The owner of any land or building within a zoning district within the township may apply to the Board of Zoning Appeals for authority to carry out any use designated as a Conditional Use within that district.

- b) Hearing - The application shall be transmitted to the Board of Zoning Appeals who shall cause a public hearing to be held.
- c) Notice - Notice of-the application for a Conditional Use permit and the hearing thereon shall be given to all property owners within two hundred (200) feet of the premises on which the use is planned. Notice shall be given by first class mail. In addition thereto, one notice of said meeting shall be published in a newspaper of general circulation within the township not less than ten (10) days prior to the scheduled hearing.
- d) Decision - The Board of Zoning Appeals shall make a decision within a reasonable period of time after the hearing. In approving a Conditional Use Permit, the Board of Zoning Appeals may impose such conditions, safeguards and restrictions as may be necessary to comply with the standards set out in Section 28.12 of this Article in order to reduce or minimize potentially injurious effects upon other property in the neighborhood, and to carry out the general purpose and intent of this Resolution. Violation of such conditions, safeguards and restrictions, when made part of the terms under which the Conditional Use Permit is granted, shall be deemed a violation of this Resolution and may be pursued as such.

Section 28.08 - DECISION OF BOARD: The concurring vote of three (3) members of the Board of Zoning Appeals shall be necessary to reverse any order, requirement, decision or determination of the Zoning Inspector, or to decide in favor of the applicant on any matter upon which it is required to pass under this Resolution, or to effect any variance in the application of this Resolution. Every action shall be accompanied by a finding of fact, based on testimony and evidence and specifying the reason for a granting or denying of the request. A copy of the Board's decision shall be mailed to the applicant by first class mail.

Section 28.09 - PUBLIC INFORMATION: The record of the Board's proceeding in any matter shall be kept on file in the township office of the Township Hall, subject to the order of the Delaware County Common Pleas Court, and available for inspection by the public.

Section 28.10 - RECORD: For any hearing at which the applicant desires a record to be made, the applicant shall give notice not less than ten (10) days prior to the date scheduled for said hearing to the Zoning Secretary requesting that a court reporter be retained to make such record, and the applicant shall deposit with his/her request cash in the amount established by the Trustees to be used to defray the expenses of making a record. Section 28.11 - FEES TO ACCOMPANY NOTICE OF APPEAL OR APPLICATION

FOR VARIANCE OR CONDITIONAL USE: For all actions of the Board of Zoning Appeals, the Board of Township Trustees shall, from time to time, establish fees to be deposited with each application. Such fees shall be required generally for each application to defray the costs of advertising, mailing and other expenses.
